The information that follows was taken from the Missouri Birth and Death Records 1910 - 1955. This database for the State of Missouri can be found at: http://www.sos.mo.gov/archives/resources/deathcertificates/#search. And as always, I refer the user to the original source for these records. I have extracted the records for Cooper County, Missouri for several reasons. The first is to allow them to be included in the search engines used for Cooper County, Missouri. The second reason is that numerous errors were made in the transcription of the death records. Errors are a natural part of collecting and preserving records. In this case I have made "corrections" to some surnames. So if you are requesting a photocopy you should use the name given under the column entitled "Database Full Name" As usual I will accept all corrections. It is believed that we will eventually be able to correct the state records.
