This book, un-numbered and with no identifying letter, is kept in the vault in the office of Recorder of Deeds. This is a large book of plats. The years and much use have dimmed some names around the edges of the book, and the corners on the right are frequently gone. For this reason, the reader should note that this list cannot be complete. The compiler's aim was primarily to present as many early land patents as possible, from the earliest until about 1833 (at which time the 1830 census is a handy tool to show who lived in the county.)

Boone County was created from Howard County in 1820. It will be noted that some of these plats extend into what are now Audrain and Callaway Counties.
