THIS BOOK IS DEDICATED TO

BILLIE THOMPSON

"A TRULY GREAT LADY"

Her generosity enabled us
to publish an accurate
and complete book.

This drawing by Doug Mills of the "Garden of Gethsemane", the Feature Piece for the ROSELAWN Section is the first Section Feature Piece you will see when you enter Mount Rose Memorial Park.

Working on this book has been a wonderful experience. I have visited via telephone with people I've known for years, people I've always heard of but never met, people I had never heard of before and even some I've known in the past but hadn't heard from in many years and all have been most helpful. I've received many lovely letters. It has been most rewarding. Needless to say, I've had lots of good help and I'd like to thank the following:

JEAN MILLER.....I just don't have the words to express the gratitude I owe and feel for the work this lady has done for us. There is no way this book could even come close to being what it is without the uncounted hours she put in. On her own time, she typed the alphabetical list of names with all available information in their files for each person in the book. She worked out a "Section Code" to simplify how to give you the location of each burial site and then she drew the map for us. Thank you Jean, you are a jewel.

For one reason or another there were a few blank spaces in the information Jean gave us and I tried to fill in the blanks. Didn't quite get all of them but did come close, thanks to more people.

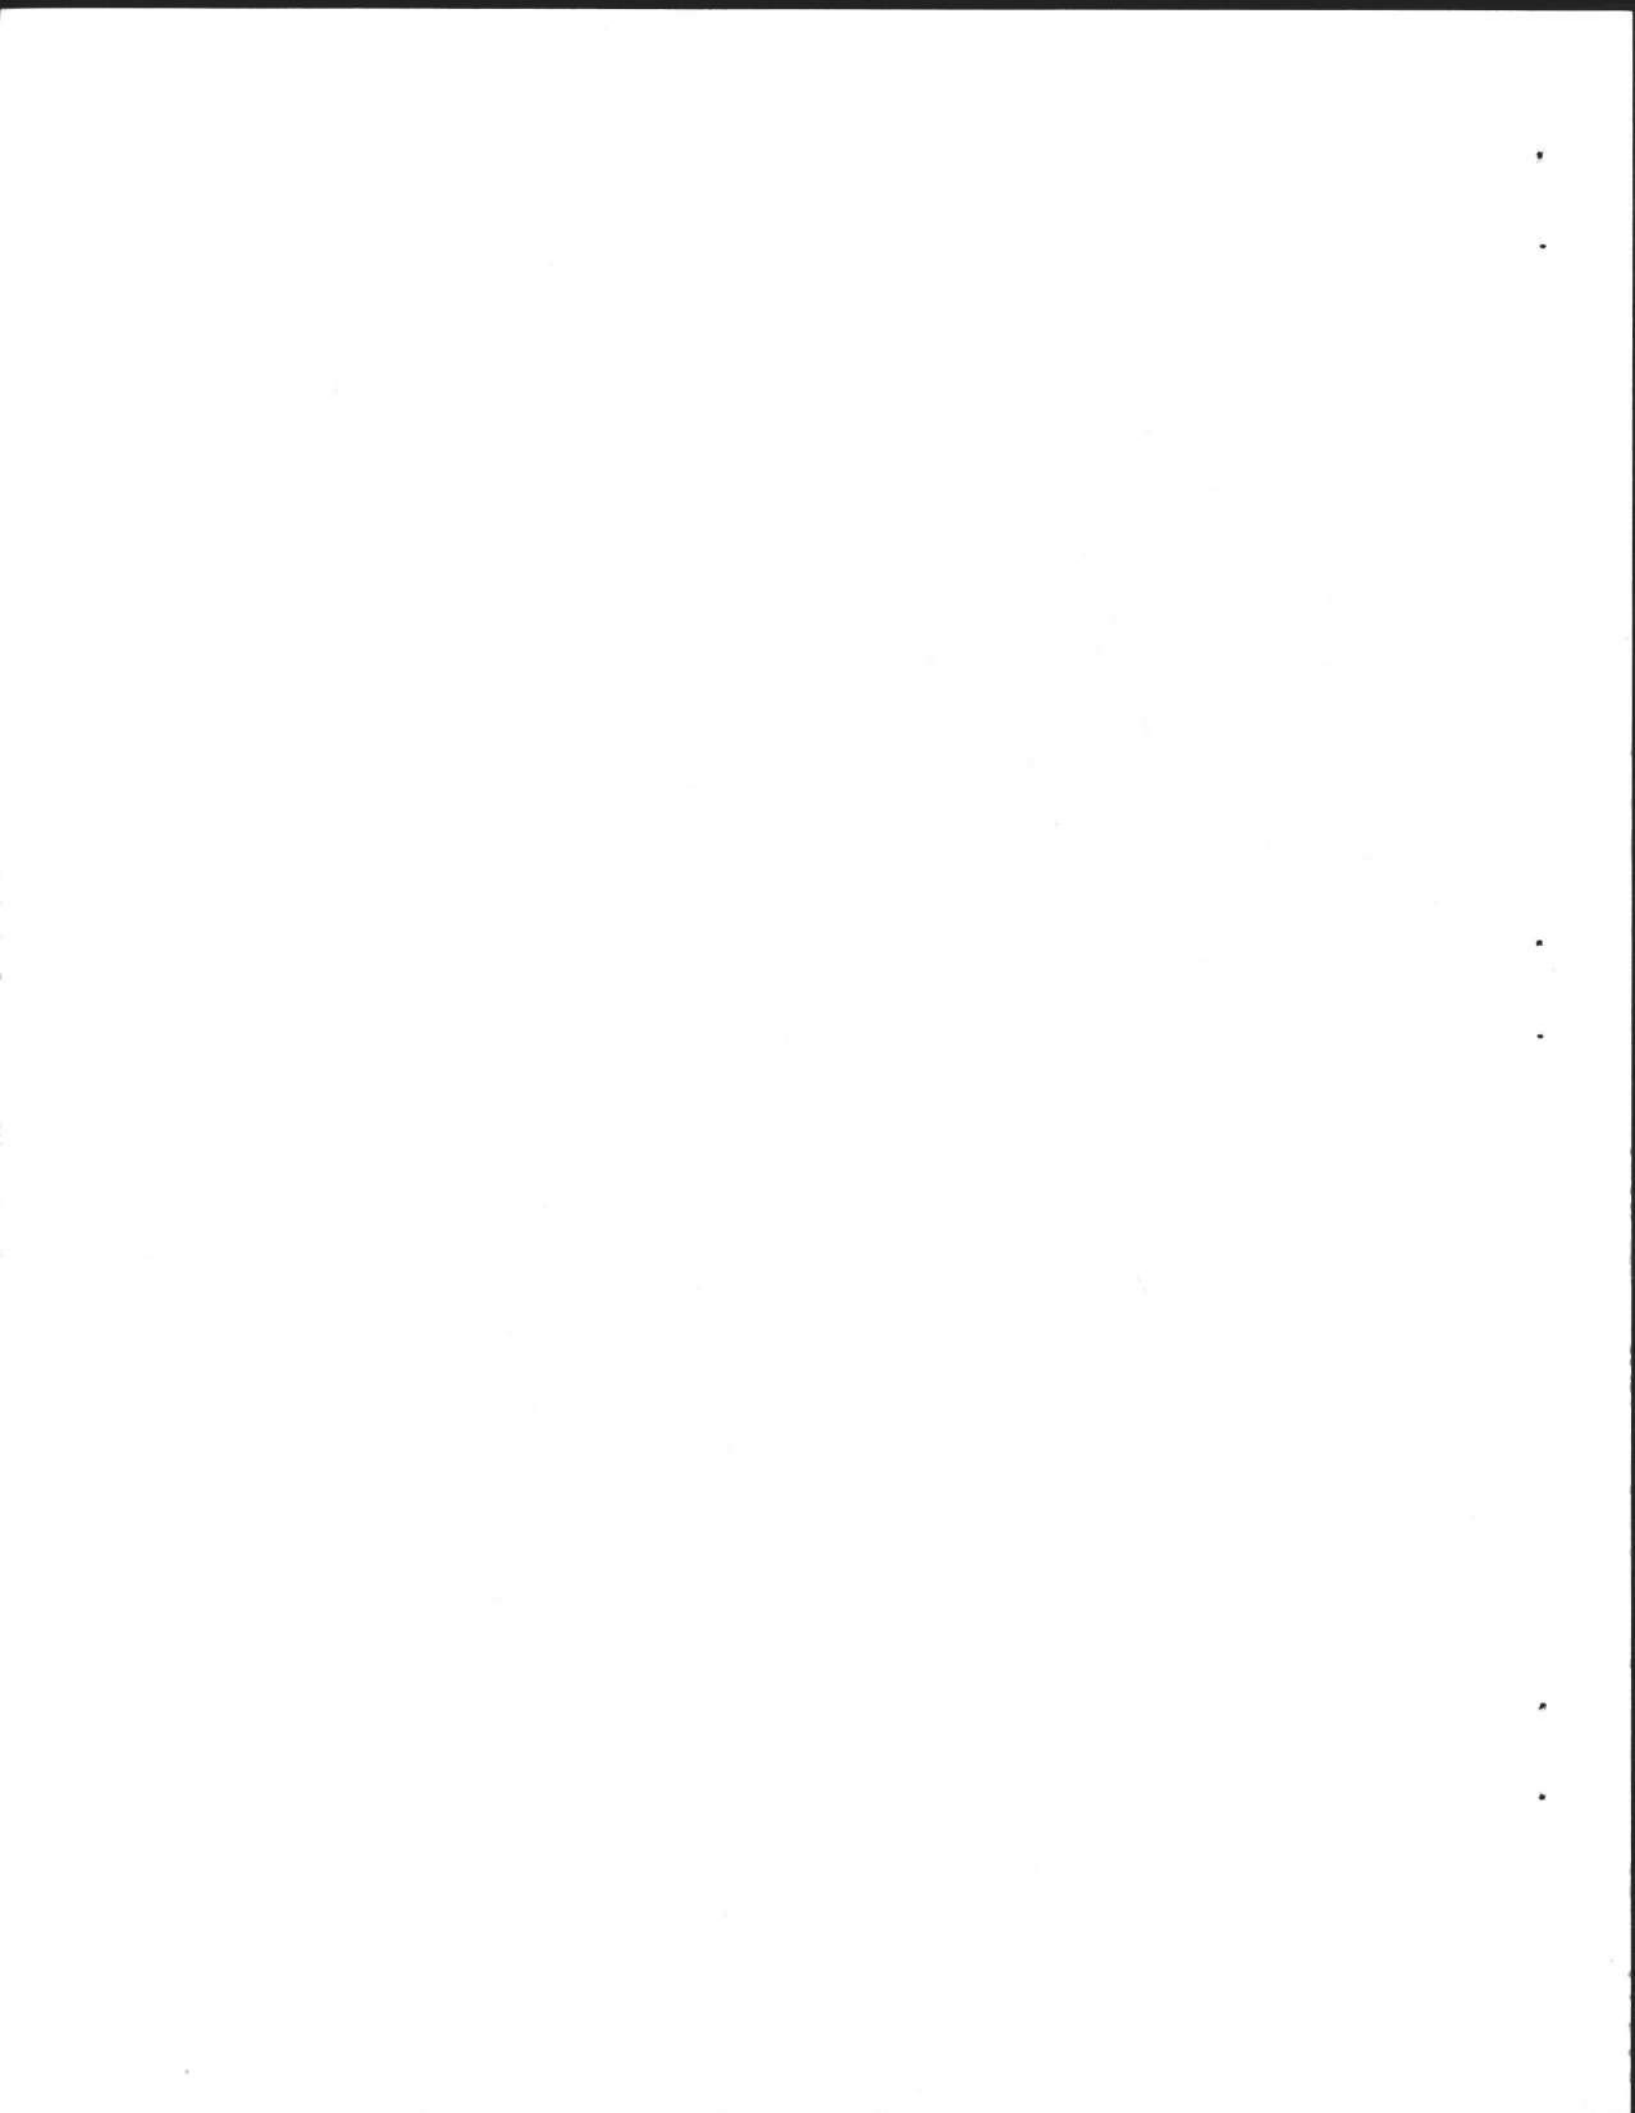

JOE PICKERING of Pickering Funeral Home
JOYCE BUTTS of Holman Funeral Home
VIRGINIA LOWRANCE of Colonial Funeral Chapel

These people either made their records available to me or did the research and furnished all the information they could. I thank you and I really appreciate your help.

HAZEL CRAVENS.....When I had absolutely no idea whatsoever where to even start to find some needed information this nice lady could and would help. Once I must have had 15 names and she gave me "clues" as to who to contact and I think all but one worked out fine. Thank you, Hazel

DOUGLAS MILLS.....I asked "Red" Mills if he thought Doug would draw us a picture of the new entrance sign at Mount Rose Memorial Park for the cover of this book. Doug did just that plus the other drawings included in the book. Thank you, Doug.

Geneva L. Harris

This drawing, by Doug Mills, pictures the grave site of his Mother, Opal Pauline Mills.

PREFACE

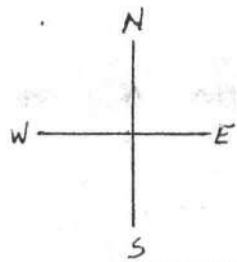

Mount Rose Memorial Park Incorporated was established in 1953 and remains a family owned corporation. It is situated on the east side of Highway 5 just south of the Lebanon City limits.

All grave markers are ground level. There are no tall monuments but there are always hundreds of bouquets of flowers so that it appears to be one large beautiful flower garden.

BABYLAND, in the southwest corner alongside Highway 5, is a space reserved for tiny babies. No charge is made to the family for these burial spaces. When you are nearby, you feel this is indeed a very special place.

The cemetery is divided into eight sections with a special "Section Feature Piece" in most of them. A code has been assigned as shown below to designate the section where each grave is located. This code appears beside each name listed in this book. The map shows where each section is located.
