TINDLE ADDITION 202 - 213 Beginning southeast corner

WESTERN SLOPE ADDITION 214 - 218 Beginning south end

MACHPELAH CEMETERY

Tombstone census was taken from 6 October through 4 December, 1975. Cemetery Association records were searched in an effort to list those persons who have no marker erected. These records begin 29 May, 1885 through 20 February, 1921. Tombstones were recorded as they lie in the cemetery. Association records are in chronological order beginning on page 219. In some cases an individual may be mentioned in both sections if the connection was not entirely clear.

Ministers or organizations conducting funeral services were listed beginning with 24 July, 1904. These names follow the descriptions and are in parenthesis. They are indexed separately on pages 293 and 294.

Names preceded by an asterisk were obtained from sources other than given above.

Any letter or number which is underlined indicates the marker very difficult to read and should not be assumed correct.

Monuments bearing several names are spaced together.

Comparable stone: When stones in the immediate vicinity are of like style and color but bear different surnames it is noted "Comp. to John DOE".

From cemetery records:

"Record of interments in Machpelah Cemetery beginning in the year 1885. All prior recording of the dead, if any were made, were destroyed or lost. The record herein is a transcription of the original begun in the year mentioned by G. K. SMITH and transcribed and continued by his successor signing, T.J. GREENE. The age of the cemetery dates between the years 1846 and 1847. The oldest person in years entered was 104 years".

In the course of Mr. Greene interpreting the handwriting of Mr. Smith and my transcription from Mr. Greene's pen there are bound to be quite a few errors.

Surnames used as given names are not always capitalized, especially for males, but will appear in the index.

MACHPELAH CEMETERY

by

John R. Wallace

Machpelah Cemetery at Lexington, Missouri, was incorporated in the year 1849 by Special Act of the General Assembly of Missouri, that then being the legal manner of effecting incorporations in the state. It is one of the oldest corporations in Missouri remaining active and functioning continuously since its chartering. Its name is taken from the Old Testament where in the 23rd chapter of Genesis the patriarch, Abraham, being a migrant herdsman and suffering the loss of his aged wife, Sarah, was compelled to purchase a place for her burial.

Machpelah Cemetery is non sectarian and is the last resting place of persons of almost every faith or of none, of the noteworthy and the unknown. When the steamboat SALUDA exploded just off the wharf at Lexington on Good Friday, 1852, with great loss of life of the emigrant Mormon passengers, all of the churches of the community joined in performing the burial office for uncounted and unknown victims, who were buried in unmarked graves.

Prior to the establishment of Machpelah Cemetery, Lexington from its founding in 1822 had been served by a small graveyard of under one acre in size which has now disappeared entirely. A public school was erected on its site in 1890 after it was thought that all burials had been removed. That building was replaced by a post office in 1965. No records have survived of the unnamed early cemetery.

No record of burials in Machpelah Cemetery earlier than 1885 has been preserved, and there is a period from 1920 to 1940 when the cemetery's burial record was lost in a fire.

Land was purchased by John TAYLOR WADDELL in 1836. He died in 1839 and was the first burial in the Waddell family cemetery. All signs of this cemetery have been obliterated but its location is indicated on the map.
