INTRODUCTION

Time, patience and a love for this project have all been factors in what you are holding. The time was always hard to find, as patience was too, but the love for genealogy is always there!!

I would like to thank the following people for the help they have given--without it this book may have never been a reality: Mrs. Lucie A. Smith, Steve Bauer, Barbara Pugh, Margie Burris, and especially the new president of the Phelps County Genealogical Society, Jerome T. Berry. Thanks!!!!

In my book it has the name of the owner, the first name, and the name of the person who paid the taxes, this is located in the far right column. This shows the difference in the way the county spelled the name (the first column) and then the way the individual people signed their names (the last column).

The column immediately after the name is the amount of acres the individuals owned.

The column immediately after the acreage is the land coordinates or description. Some of the abbreviations in this column would be "Und.," this stands for Undivided. The abbreviation "pt.," stands for part. Others are "frac," this means fraction and "R.," which stands for River. The others are general directions, North, South, East, and West.

The next column holds the Section, Township, and Range of a parcel of property.

John Smith 80 SWSW 22 41 10 Jno. Smith

This would mean John Smith owned 80 acres-SWSW in Section 22, Township 41, and Range 10. We also see that he did pay his taxes, by his signature.

Other abbreviations for the general book is that when "NA" appears, it was "not applicable." Also the line (-----) in the column where the taxpayers name goes means he did not pay his taxes.

The town lot section is the same, except the description, when there is one appears after the name, NOT in the middle.

Another difference would be the numbers, an example would be:

A.S. Long	8 28	-----
" "	9 28	A.S. Long

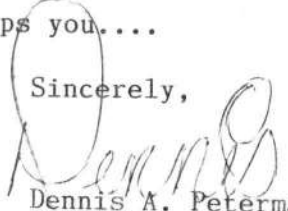

The owner of course would be A.S. Long, he owned land in the section of the town in 8 28 and 9 28, the 28 showing it to be in the same area. Also when they owned adjacent property in the towns and in the book this way, their names would not appear in the until the last entry. This meant that the person had paid his taxes, but if one of these occur where there is no name at the end or in the last entry this meant they did not pay their taxes.

I would like to point out that this is a LAND TAX, so the people did not necessarily have to live in Phelps County, but in most cases they did.

Finally, I would like to say that if there is a misspelling or an omission in the index it is only out of human error. I wish to apologize if any error has been made.

Thanks again for all the support and I hope this helps you....

Sincerely,

Dennis A. Peterman

§ § NOTE § §

The above lands are what is now the southern portion of MERAMEC TOWNSHIP.

Around the turn of the century, the rural schools included: Hale, Eickhorst, Blackjack, and Clinton Bank, to name a few. Two of the more "familiar" post offices of the time were Winkler and Norman.

From the northwest of Township 36 comes the Norman Creek, crossing the township and entering Dent County on the south end, near Hwy. 68.

Some of the cemeteries include: Asher, Bell, Greig, Benton, Scott, and Grubb. Just over in Dent County is two cemeteries out of the many which has Phelps county "people" in them, they are the Morrison and the Coppedge Cemeteries.

§ § NOTE § §

The above lands are what is now the northern portion of MERAMEC TOWNSHIP, which is located on the eastern side of Phelps County.

One of the rural schools in this part of Meramec township is Zion Hill.

The township's cemeteries include, Pine Hill, Adams, Cooper and Reed, to name a few.

The extreme northeast corner of this part of Meramec Township contains the Meramec River, which is encircled by the present day Meramec Spring Park, which is managed by the James Foundation of St. James, MO.

Meramec township is the proud "owner" of two creeks, Norman and Dry Fork, which wind and turn throughout the townsship.

** The name Sorency was written in pencil above the ink name, SHONENCY, because of the pencilled-in name, Sorency will appear on the list, but again this name could ber SHONENCY.

§ § NOTE § §

The above described lands are what is now ST. JAMES TOWNSHIP, which is located on the eastern side of Phelps County, Missouri.

Three of the old country schools in St. James Township are the Swyers, the Friendship, and Flag Springs.

The towns of this township are St. James, which is the second largest in the county, and Flag Springs, which lies in the northwest part of the township.

There are three waterways in the county, the Clear Creek which lies in the northeast part of the township. The second of the three is the Dry Fork Creek. The final one is the largest of the three, the Meramec River in the southeast corner of the township.

This township has many cemeteries, this is only a few of them:

Gronholt
 Flag Springs
 St. James Catholic
 Hawkins
 Gorman
 and St. Anthony

A major portion of the Meramec Spring park is located in this township, mainly in the southeast corner of the township.

Another feature of the township is the Frisco Railroad Company, which has tracks spanning the whole length of the township from east to west.

§ § NOTE § §

The above lands are what is now DAWSON TOWNSHIP, which is the northernmost section of Phelps County.

Some of the schools included: Wash, Miles and Collins.

The cemeteries of Dawson Township are Scantlin, Wash, Branstetter, Dawson, Hughes, Matlock, Oak Grove, and Krewson, to name a few.

Dawson Township is surrounded by Gasconade County on the north and Maries County to the west.

§ § NOTE § §

The above named lands are what is now the southern portion of Dillon Township, which lies on the eastern side of Phelps County.

This township is, as others characterized by the flow of the Dry Fork and Little Dry Fork creeks, they wind throughout the township.

The cemeteries of this township include the Hawkins, Thomas, Dean, Elliott, and Brown, to name a few.

Two of the old rural schools were Dean and Cleino.

A portion of the township is filled by the presence of the town of Rolla. It is on the western side of the township.

*** NOTE ***

The above lands are what is now the northern part of Dillon Township located on the border of Maries County.

In this part of Dillon Township there are several cemeteries. To name a few: Beeler, Burton, Cox, Wishon, Hawkins, Flat Grove, and Matlock.

In this section of Dillon Township, both portions of St. James and Rolla are present and both are linked by I-44.

A few of the old rural schools of Phelps County located in the township are Matlock, Flat Grove, Union, and Dillon Schools.

In the center of the township lays Little Prairie Lake, which is maintained by the Missouri Conservation.

\$\$\$ NOTE \$\$\$

The above named lands are what is now the western section of COLD SPRINGS township.

This township borders a part of Dent county on the southern part. It borders it only about half the size of this portion of the township.

Cemeteries in this township include, the Mt. Zion, the Rhea Church, Huskey and Pilot Knob, to name a few.

Some of the waterways in this township are, the Beaver Creek, Gourd Creek, Little Piney Creek, and Treable Creek.

In this part of Cold Springs township, is the Mark Twain National Forest.

The only old Post office or town in this township is Vida, located in the Northern part of the township.

\$\$\$ NOTE \$\$\$

The above lands are what is now ROLLA TOWNSHIP, located in the center of the county.

Rolla township holds the governmental buildings and county agencies of Phelps County. It holds the courthouse of Phelps County, which predates the Civil War. The structure is two stories, with a balcony jutting from the front of the building. It is made of pink brick and is very handsome.

Cemeteries of the township include, Hoss-Ray Miller, Falkenrath, Beaver , Ozark Memorial Gardens, Line, Roach (Pea Ridge), and Strawhun.

The oldest cemetery is the Rolla Cemetery, located in Rolla, it covers several blocks and has approximately 5-10,000 people buried in it, ranging from the pre-1860's to present day.

One of the old rural schools of this township was the Strawhun School, which is located near the old Strawhun Cemetery.

SSS NOTE SSS

The above named lands are now what is the Eastern portion of MILLER TOWNSHIP. The township borders Maries County and has many of the old Maries County pioneers buried in its boundaries.

Some of the cemeteries include: Miller, Upper Davis/Spencer, Brainard, Macedoni Wynn, Wiese, Carney, and Camp Creek to name a few.

One of the old schools of the section of the township is the Miller School, which still stands.

\$\$\$ NOTE \$\$\$

The above lands are what is now the eastern portion of Arlington Township.

Cemeteries of the township are Hudgens, Kitchell, Williams, Newburg, Mt. Olive, and New Home Cemetery.

This township has in its boundaries both, Doolittle and Newburg.

Through the center of this portion of the township runs the railroad, following the Little Piney Creek.

In the upper portion of this section of the township runs Interstate 44.

\$\$\$ NOTE \$\$\$

The above lands are what is now the middle section of Miller Township.

Some of the cemeteries of the township are Camp Creek, Hawkins, and Boulware.

Some of the old rural schools of the area at the turn of the century was Camp Creek, Oak Grove, Prewett, and Wynn.

One of the old Post Offices of the area was Westcott.

This section of the township is bordered on the north by the Gasconade River and Maries County.
