INTRODUCTION

The following entries were copied as accurately as possible but many of the recorders did not remember correctly or spelled the names as they sounded. If there is any questionable information, please refer to the original records. The Registry of Births gave the name, sex, rank, date of birth, and place of birth. It also gave the name, age, place of birth and occupation of the father and maiden name, age, and place of birth of the mother. The following records were copied from the original registers kept in the office of the County Clerk.
