## DEATH REGISTER, 1883-1886

1

In many Missouri Courthouses, but not all, there is a ledger with a recording of deaths beginning in 1882 or 1883 and continuing for several years thereafter. However, after a few years, many deaths were not reported, and finally the register was discontinued. In some cases, the person filing the record could not make a complete report.

The following deaths were taken from the Death Register recorded for the years 1883 through 1893 in the County Clerk's Office at the Stoddard County Courthouse in Bloomfield, Missouri. These records will show the name of the deceased, sex, color, age, occupation, date and place of death, number of years resided in the county, birthplace, place of burial, and date of burial.
